GTKEO (Get To Know Each Other): Engage in activities that foster mutual understanding and sharing of experiences in career guidance and obstacles faced. A welcoming session to build a collaborative learning environment.

BEAST (Be Aware Student) Teaching Experience: Dive into the BEAST approach, an all-encompassing methodology that enhances the customization of learning processes and career path development, aligning with labor market demands.

Aperi-BEAST: Enjoy the italian aperitivo, as an opportunity to discuss about the experienced BEAST methodology.

Discover Soft Skills Pills: Introduction to Soft Skills Pills - a collection of straightforward activities intended to seamlessly integrate into university courses to bolster students' soft skills.

Experience Soft Skills Pills: Apply the Soft Skills Pills through reverse classroom methodology, allowing you to participate and apply soft skills actively in practical scenarios.

Discover Career Pills: Explore Career Pills, a series of simple yet impactful activities crafted for easy integration into academic courses, designed to facilitate students' career growth and readiness.

Select Career Pills: Delve into the rationale behind various Career Pills and identify those that best align with your pedagogical style, ensuring a tailored teaching approach.

Teaching Innovation Lab: A workshop aimed at designing and planning the integration of learned methodologies into your teaching practices, fostering innovation in educational strategies.

Feedback and Closing: Conclude with a session for final thoughts, group reflections, and feedback on the entire process, providing closure and insights for future engagements.
